Subject: Division Directive to Reclaim, Burningham Enterprises, Mammoth Ridge 1 Mine, S/017/0048, Garfield County, Utah

Dear Mr. Burningham:

The Division of Oil, Gas and Mining requires that the Mammoth Ridge 1 Mine be reclaimed. The mineral lease was canceled for non-payment, so you no longer have right-of-entry except to reclaim the site. Site conditions pose some risk to public safety.

In addition, Division inspections and information from the Trust Lands Administration show the site has been inactive for over five years. Administrative rule R647-3-113.5 allows the Division to require reclamation after a site has been inactive for five years or more.

Regrading and seeding must be completed **by December 1, 2011**. Failure to complete reclamation as required may result in enforcement action, but additional time may be allowed if weather conditions prevent you from finishing the work within this timeframe.

If you have questions or concerns about this letter, please contact Peter Brinton at 801-538-5258 or me at 801-538-5261. Thank you for your cooperation.

Sincerely,

Paul B. Baker  
Mining Program Manager
